AUNMAN.

So your idea becomes a masterpiece

Let's get acquainted

AUNMAN is a representative brand of the furniture manufacturer Baltest Mööbel, a family-owned business that manufactures exclusive furniture with unique tailor-made solutions. We are the only furniture group in Estonia, where for over 12 years all steps of the process have been completely controlled – from drawings and samples of materials, measurements, and production all the way to delivery and installation.

Personalization from start to finish

At AUNMAN, commitment to customers isn't just idle talk. Your personal account manager will be responsible for everything from measuring to installation. And if you have any further questions, you can always call the account manager.

Don't hesitate to visit Aunman's salon

Come to AUNMAN's salon even if your ideas are bolder than normal. Our people have the knowhow and wish to think along. Why not cupboard doors with stone covers? Or perhaps a hidden kitchen? We'd be more than happy to try out any new solutions.

We are trusted in Scandinavia

In addition to Estonia, our kitchen-, bathroom and wardrobe furniture has reached an increasing number of homes in Finland, Sweden and Norway. Cooperation with real estate developers there has become long-term.

KITCHEN

The modern kitchen is the heart of every home where comfort is paired with your personal style. We will take your ideas and wishes as the basis to build a kitchen, where you can enjoy spending time alone or with your family and friends.

**To make cooking truly an experience,
AUNMAN's kitchen is based on three pillars:**

We are focused on the needs of the chef,
everything must be handy and safe.

We always find the best possible
kitchen appliances.

We use premium materials regardless of the price range.

So you could be calm for yourself and your loved ones. We can keep up with your ideas! We use over 100 different materials and colors: from oak wood to marble. But we even offer furniture glass, concrete and natural stone coverings! To make sure that they're safe and durable, they underwent a safety, strength and durability test at TalTech's furniture laboratory. The test confirmed that the furniture meets safety requirements. Since 2016, the company also has ISO 9001 certification.

AUNMAN's furniture can handle even top chefs

Anni Arro
Chef

Maybe you prefer a timeless, somewhat historic style kitchen where the color tone of the cabinet doors adds nuances of Scandinavia or England?

BATHROOM

A room where you can focus
on yourself uninterrupted.

Your intuition tells you whether you want grand marble in the bathroom, cheerful wood or pure white colors. With our designers, we will find the most suitable solution.

It goes without saying that AUNMAN's bathroom furniture is of high quality. It is important for us that it is also aesthetically pleasing.

A modern wardrobe system featuring light-colored wooden shelves and drawers. A white bathrobe hangs on a black hanger. The drawers are filled with folded purple towels. The wardrobe is illuminated by a long, thin light fixture on the top shelf. The floor is covered in a purple carpet. A window on the right side shows a view of trees.

WARDROBE

This is where harmony in your home begins

AUNMAN's wardrobes have a place for each item, everything is easily accessible. Clarity will not only characterize the wardrobe, it will also be a part of your life!

A BEAUTY SALON FOR CLOTHES

Set aside a room, where the washing machine and dryer duo delicately ensures that even when you wash clothes late at night, they are fragrantly clean the next morning.

Custom solutions are our passion

The latest CNC indexers, production software and the revolutionary Production 4.0 concept have minimized human errors. The completion of the furniture has a set date and the entire production process can be monitored online. Our most experienced technician personally carries out quality control of every piece of furniture.

Thanks to our capabilities, we make cabinets and shelves with the exact dimensions and corners that the customer wants. Special solutions are indeed our passion. Just so your idea can become a masterpiece.

We are innovative...

Our engineers and technicians are not afraid of complex challenges, otherwise, they wouldn't be among the best. In cooperation with our customers, we have developed clever solutions, which have surprised even ourselves. We believe that continuous innovation and the principle of "Everything you can imagine, can be achieved" guarantee success.

...and flexible

We are fast and flexible. Because our factory is located on our premises, we can make changes until the very last moment before our milling cutters and saws get to work.

Our product range includes:

- kitchen furniture
- wardrobe solutions
- sliding doors
- bathroom furniture
- washing and drying solutions
- hotel furniture
- furniture for shops and cafes
- hallway furniture
- office furniture
